Mirlon Total[®]

– the innovative choice for a rapid result

Mirlon Total is developed using Mirka's innovative Total Coating Technology. Mirlon Total is more aggressive than Mirlon and produces a dense scratch pattern and a rapid result. Mirlon Total is suitable for use in wet and dry modes. It features an open and flexible structure and strengthened fibres which makes it strong and long-lasting.

Mirlon Total is mainly developed for mattening of hard-to-reach areas, such as corners and profiles, prior to painting. It is also used when feathering out, removing overspray in a blending zone and for spot repairs. In the wood sector Mirlon Total is also excellent for intermediate sanding.

SUITABLE FOR: Automotive Refinishing, Paint & Decoration, Wood Processing, Metal Processing, Composite Processing, Marine Industry, Vehicles Manufacturing

TECHNICAL SPECIFICATIONS

Grain	Aluminium oxide (VF), Silicon carbide (UF, MF)
Bonding	Resin
Backing	Non Woven
Coating	Three dimensional Total Coating
Colour	red (VF), grey (UF), beige (MF)
Grit range	VF 360, Uf 1500, MF 2500
